Inc. for a Certificate of Public Convenience) ORDER NO. 98-287
and Necessity to Provide Intrastate Local)
Resale Telecommunications Services within)
the State of South Carolina.)

JMR

This matter comes before the Public Service Commission of South Carolina (“Commission”) on the request of Intellicall Operator Services, Inc. (“IOS” or “the Company”) for modification of Order No. 98-287. Order No. 98-287, dated April 22, 1998, approved the Application of IOS to provide local telecommunications services in South Carolina and granted authority of IOS to provide resold local exchange telecommunications services in South Carolina. IOS now informs the Commission that its intends to begin providing facilities-based local exchange telecommunications services within South Carolina and requests that its certificate of authority be modified to the extent necessary to provide such services.

Upon consideration of this request, the Commission concludes that the request of IOS should be granted. The Commission is familiar with IOS’s technical, financial, and managerial expertise and resources, and the Commission believes that IOS is qualified to provide facilities-based local exchange telecommunications services.
